

Archiving, Discovery and Recovery (RADAR) is a hosted email archiving service that operates in conjunction with your existing email infrastructure to ensure the protection, preservation and continuous operation of email communication for your business while providing on-demand email access for users anytime, anywhere.

## BIGGEST BENEFIT

Intuitive web interface to instantly search, identify and retrieve email and attachments, recovering them directly to your desktop.

## FEATURES

1

### eDiscovery

Our eDiscovery provides our customers a process to find e-mail in the active archive. By enabling Archiving through Cloud Technology Advisors you can take advantage of tools that perform multiple levels of live search for any email or attachment within the archive.

2

### Email recovery

Our archiving solution allows Cloud Technology Advisors or you to instantly recover any email or attachment from the active archive into your desktop inbox.

3

### Email continuity

Email continuity gives our customers continuous on-demand access to email from any location. This eliminates downtime you and your employees may experience when dealing with a mobile workforce or offsite collaboration.

## CLOUD AT YOUR FINGERTIPS. MIGRATE TODAY!
