

Hosted Exchange is nothing more than your Microsoft mailboxes hosted and secured in our datacenter. The data that resides can either be managed by Cloud Technology Advisors or managed by you.

BIGGEST BENEFIT

Eliminates up-front hardware and software expense while providing access to high-powered business functionality not once available outside the Fortune 500.

FEATURES

1

Remain in control

Migrating to Hosted Exchange with Cloud Technology Advisors allows for a tailored solution based on your unique needs to ensure that your communications are always available, while you remain in control. Consume mailboxes based on your users needs so you aren't spending budget on unnecessary features.

2

Do more on any device

Enable your teams to be more productive while utilizing management capabilities needed due to the increase in communication volumes across multiple devices required.

3

Protect your organization

Data control is major concern within any organization. Now your storage and compliance demands can be met, meaning you or Cloud Technology Advisors can protect business communication and sensitive information, simplifying internal and regulatory compliance.

CLOUD AT YOUR FINGERTIPS. MIGRATE TODAY!

Headed down the Hosted Exchange path? Here are some complementary services you should consider:
CRM • SHAREPOINT • LYNC • SPAM FILTER • ARCHIVING • BUSINESS CONTINUITY • ENCRYPTION AT REST
