

Microsoft SharePoint provides a flexible, customizable, collaborative platform that enables document sharing, workflows, and streamlined central administration for you and your users.

## BIGGEST BENEFIT

Single collaboration platform to manage and access corporate information in databases, reports and business applications. available outside the Fortune 500.

## FEATURES

- ### 1 Enterprise style collaboration

Collaboration is critical as we continue to transition and understand the multi-generational workplace. Tools such as SharePoint help position your organization for navigating and embracing these exciting changes. SharePoint provides the flexibility of enterprise collaboration at a cost that just makes sense.
- ### 2 Organizational efficiency

It takes a team of individuals, processes, projects, customers and so forth to keep our businesses generating revenue and making a profit. Organization is essential in coordinating it all. By partnering with Cloud Technology Advisors, you can ensure you're receiving the true organizational benefits a tool like SharePoint can bring to you.
- ### 3 Customization & management

The biggest downfall to implementing a new solution is the inability to customize and manage. Thankfully, customization and management are at the heart of the SharePoint product. Now you can implement collaboration according to your business.
